

## Transitive Animate + Object Verbs Notes on Charts 38–40

Transitive Animate + Object Verbs (*ta+obj*), also called double-object verbs, have two objects, one direct (animate) and one indirect (animate or inanimate).

The dictionary entry forms of *ta+obj* verbs are those used with a singular inanimate indirect object ('it'), as in *maceptuwan* 's/he takes it to h/'. For example, *maceptuwan Simuwol latuwakon* 's/he takes the ladder to Simon.' These verbs are also used with animate indirect objects, as in *maceptuwanol Simuwol cikoniyil* 'she takes the apple to Simon.' Note that in these two sentences the direct object is Simon (the direct object of the *ta* verb), while the indirect object (the "+obj") is the ladder or the apple; this is opposite to the sense of direct and indirect as used in English. In Passamaquoddy-Maliseet, only an animate noun can be the direct object of a *ta+obj* verb; normally this is a person or animal.

In the extensions to Charts 38 and 39 (pages 4–7 and 10–13), the forms of a *ta+obj* verb are shown for the Indicative and the Changed Conjunct, first with an *inanimate* indirect object, singular and plural, positive and negative; and then with an *animate* indirect object, singular and plural, positive and negative. (Forms of the Unchanged Conjunct, Subordinative, and Imperative are not included in the extended charts, since they are not marked for the indirect object.)

The *ta+obj* verbs like those in **Chart 38** are derived, not from the stem of the *ta* verb itself, but rather from the stem of the *ti* verb with the corresponding meaning. The stems of Chart 38 verbs all end in *-uw-*.

### *verb ta*

'*t-oliyal* 's/he makes h/'  
*macephal* 's/he takes h/'  
*mahkuwyal* 's/he lends to h/'  
*monuwal* 's/he buys h/'

### *verb ti*

'*t-olihtun* 's/he makes it'  
*maceptun* 's/he takes it'  
*mahkuwyutomon* 's/he lends it'  
*monuhmon* 's/he buys it'

### *derived verb ta+obj 38*

'*t-olihtuwan* 's/he makes it for h/'  
*maceptuwan* 's/he takes it to h/'  
*mahkuwyutomuwan* 's/he lends it to h/'  
*monuhmuwan* 's/he buys it from h/'

An exception to this derivation pattern is '*t-ihmuwan* 's/he has something belonging to h/', which is the *ta+obj* verb corresponding to the *ta* verb '*t-iywal* 's/he has h/' (compare the *ti* verb '*t-ihin* 's/he has it').

The *ta+obj* verbs like those in **Chart 39** are derived from the stems of several types of verbs; these include *ai*, *ti*, *ta*, and even other *ta+obj* verbs. The stems of Chart 39 verbs all end in *-ew-*.

### *original verb*

*kakawahke* 's/he throws fast' (verb *ai* 9)  
*'kisuwehkan* 's/he used it' (verb *ti* 30)  
*'t-olahkewal* 's/he throws to h/' (verb *ta* 32)  
*messunomuwan* 's/he shows it to h/' (verb *ta+obj* 38)  
*uli-punomuwan* 's/he puts away something  
belonging to h/' (verb *ta+obj* 38)

### *derived verb ta+obj 39*

*'kakawahkewan* 's/he throw it fast to h/'  
*'kisuwehkewan* 's/he used something belonging to h/'  
*'t-olahkewan* 's/he throws it to h/'  
*messunomuwewan* 's/he shows it on h/ behalf'  
*uli-punomuwewan* 's/he puts it away for h/  
s/he puts it away on his behalf'

The *ta+obj* verb *milan* 's/he gives it to h/' found in **Chart 40**, is derived from *milal* 's/he gives to h/' verb *ta* 32. *Milan* and related verbs, such as *nokka-milan*, *uci-milan*, *wesuwe-milan*, take the same indirect object endings as those found in Chart 39, except that where an ending begins with *-ol-* following the stem *-mil-*, this *-ol-* becomes *-l-*: Indicative 1-2 *kmillon*, 11-2 *kmillonen*, etc.; Changed Conjunct 3-12 *millinoq*, 3-22 *millinaq*, etc. (see Chart 40).

**NOTE: THESE UPDATED, EXPANDED *verb ta+obj* CHARTS CONTAIN CORRECTIONS AND ADDED INFORMATION**  
(Revised from pages 688-693 in the *Passamaquoddy-Maliseet Dictionary*)

*stem 1* = verb stem; *stem 1a* = prefixed verb stem; *stem 1b* = unprefixed verb stem; *stem 2* = changed verb stem
